Presentations:

- Alberta Masters Games – Michelle Swanson
 - Michelle gave a brief overview of the inaugural games planned for the area in August. She will forward information posters, etc. to Rick to pass along to the group.
- Closure and Liability Management – Laura Chant, AER
 - Laura provided an overview of the AER's liability management processes and regulations, recent changes, and a more in-depth look at processes that occur prior to a facility being declared an 'orphan'. She highlighted some changes in process that allow the regulator to be more pro-active in monitoring companies for potential liability management issues.

Discussion Items:

- Fall Information Session
 - Based on the presentation from Laura, the group discussed having a fall session that focuses on liability management. Given the broad scope of the topic, the group discussed perhaps taking a focus on the background processes and circumstances that lead up to (and provide context around) the broader abandonment issues.
- Social media discussion was tabled for a future meeting.
